Virtual Event Overview

About 3MT

The Three Minute Thesis (3MT[®]) competition celebrates the exciting research conducted by Doctor of Philosophy (PhD) students. Developed by The University of Queensland (UQ), 3MT cultivates students' academic, presentation, and research communication skills.

The competition supports their capacity to effectively explain their research in three minutes, in a language appropriate to a non-specialist audience.

History

The idea for 3MT came about at a time when the state of Queensland was suffering severe drought. To conserve water, residents were encouraged to time their showers, and many people had a three minute egg timer fixed to the wall in their bathroom. The then Dean of the Graduate School, Emeritus Professor Alan Lawson, put two and two together and the idea for the 3MT competition was born.

Timeline

2008: The first 3MT competition was held at UQ with 160 Higher Degree by Research (HDR) candidates competing.

2009: The 3MT competition was promoted to other Australian and New Zealand universities and enthusiasm for the concept grew.

2010: A multi-national event was developed, and the Inaugural Trans-Tasman 3MT competition was held at UQ.

2013: The first Universitas21 (U21) Virtual 3MT competition was held with several universities from around the world competing.

2016: The Trans-Tasman 3MT competition expanded to include universities from South-East and North Asia regions and was renamed the Asia-Pacific 3MT competition and is hosted annually by UQ.

2020: 3MT moves to a temporary virtual format due to COVID-19.

Now: 3MT is held in over 900 universities across more than 80 countries worldwide.

Why participate?

Skills development for research candidates

Participating in 3MT develops academic, presentation and research communication skills, while developing research candidates' ability to effectively explain their research in language appropriate to a non-specialist audience.

Building research culture in schools and institutes

3MT provides a valuable opportunity for HDR candidates to come together, get to know one another and talk about their research. It also provides a supportive environment in which schools, institutes and universities can provide presentation skills training.

Building external relations for the university

3MT winners may go on to represent their university at national and international 3MT competitions which provides an excellent networking and professional development opportunity. Previous 3MT finalists have benefited from invitations to a variety of other networking events following their participation in the competition.

Prizes

Prizes are an important incentive for candidates entering the competition. Prizes can vary at the discretion of each institution. Each institution may also wish to seek sponsorship from external providers to fund the competition prizes.

For example, UQ awards winners with the following prizes:

- First Prize: \$5000 research travel grant
- Runner-Up: \$2000 research travel grant
- People's Choice: \$1000 research travel grant

Competitor Guide

Even the world's best public speakers prepare before important presentations. To assist your competitors in preparing their 3MT, please review the 3MT website for suggestions that will help your competitors in writing their presentation, creating their slide and practising their

Virtual Event Overview

Virtual 3MT Competition

In order to take part in a virtual 3MT competition each participating institution will hold its own internal 3MT competition to select a winner. The key requirement will be that students must pre-record their presentation for consideration by the judges. This will ensure participants are not disadvantaged due to technical issues during a presentation. The winner can then be entered into a national 3MT competition (if available). Institutions are free to decide the format of their local competition, within the rules set by The University of Queensland.

A virtual 3MT competition will continue to allow HDR candidates to participate in 3MT, hone their communication skills, receive peer review, and gain skills surrounding the presentation of their research to a wider audience.

Virtual 3MT Process - Video Submission

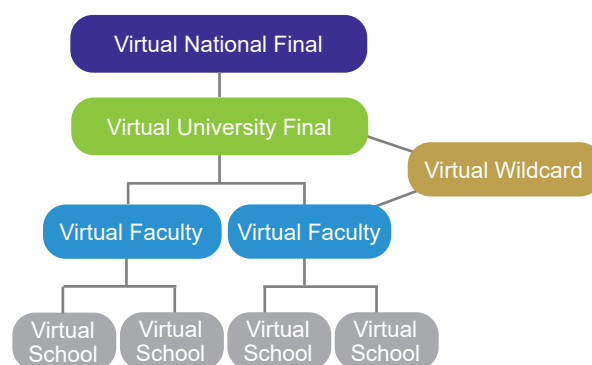

- Competitors record and edit their 3MT presentations (using any available recording or mobile device) and upload to a Vimeo account (competitors to set up a personal Vimeo account) and provide the presentation link to their university 3MT Event Coordinator for consideration in their university 3MT competition (School/Faculty/University).
- Universities to upload competitors 3MT video to their university website (or similar) for audience viewing.
- Universities to email 3MT video links and 3MT PowerPoint presentations to judging panel.
- Judging panel review all videos (mark using 3MT scoring sheets) and conduct a Zoom meeting to discuss judging and final placement of winners – Winner / Runner-up.
- **Please note:** Ensure you instruct the judging panel that they must not judge the presentation based on the video/recording quality or editing capabilities (optional inclusions). Judging should focus on the presentation, ability to communicate research to a non-specialist audience, and 3MT PowerPoint slide.
- People's Choice element - number of likes received (e.g. via Vimeo or Facebook).
- Winners announced online and via newsletter/social media.

Virtual Wildcard Competition

The Wildcard Competition is an optional level, where the People's Choice winner (audience voted) from each Faculty Final is given the chance to compete for a place in the University 3MT Final (If the faculty winner was also the people's choice, the runner-up proceeds to the Wildcard competition).

Progression

The following chart outlines the progression of competitors throughout the 3MT competition.

The winner of each heat or final is expected to represent their school/faculty/university at the next stage of the competition. If the winner does not wish to proceed with submitting a video, the runner-up video will proceed to the next round of the competition in their place.

Virtual Asia-Pacific 3MT Competition

The 2020 Virtual Asia-Pacific 3MT competition will be hosted virtually by UQ and is open to Universities in Australia, New Zealand, South-East and North-East Asia.

Participating universities agree to

- Register online via the 3MT website;
- Ensure competitors meet the eligibility criteria and adhere to the 3MT rules;
- Provide UQ with competitors recorded 3MT presentation link, PowerPoint slide and contact details.

The 2020 Virtual Asia-Pacific 3MT competition is proudly sponsored by our Platinum Sponsor, Springer Nature, a global publisher dedicated to providing the best possible service to the whole research community.

SPRINGER NATURE

Virtual Competition Guidelines

Eligibility

Active PhD and Professional Doctorate (Research) candidates who have successfully passed their confirmation milestone (including candidates whose thesis is under submission) by the date of their virtual presentation are eligible to participate in 3MT competitions at all levels, including the Asia-Pacific 3MT competition. Graduates are not eligible.

Please Note: Australian students enrolled in any of the following programs are not eligible to enter the Asia-Pacific 3MT competition:

- Professional Doctorate (Research) (program composed of at least 2/3 research) funded via the Research Training Program;
- Masters (Mphil and coursework);
- Professional Doctorate (coursework)

Rules and Recording

- Presentations are limited to 3 minutes and competitors exceeding 3 minutes are disqualified.
- Presentations are considered to have commenced when a presenter starts their presentation through speech (timing does not include the 3MT title slide and commences from when the competitor starts speaking, not the start of the video).
- **Videos must meet the following criteria:**
 - Filmed on the horizontal;
 - Filmed on a plain background;
 - Filmed from a static position;
 - Filmed from one camera angle;
 - Contain a 3MT title slide;
 - Contain a 3MT PowerPoint slide (top right corner/right side/cut to)
- A single static slide is permitted in the presentation (no slide transitions, animations or 'movement' of any description). This can be visible continuously, or 'cut to' (as many times as you like) for a maximum of 1 minute.
- The 3 minute audio must be continuous – no sound edits or breaks.
- No additional props (e.g. costumes, musical instruments, laboratory equipment and animated backgrounds) are permitted within the recording.
- Presentations are to be spoken word (e.g. no poems, raps or songs).
- No additional electronic media (e.g. sound and video files) are permitted within the video recording.
- The decision of the adjudicating panel is final.
- Submissions via video format (only video link provided to Event Coordinators). Files sent in other formats will not be accepted.
- Entries submitted for final adjudication to Wildcard or University Final are to be submitted from the School/Faculty/Institute 3MT Event Coordinator. Competitors should not submit their videos directly to 3MT.

Please note: competitors *will not* be judged on video/recording quality or editing capabilities (optional inclusions). Judging will focus on the presentation, ability to communicate research to a non-specialist audience, and 3MT PowerPoint slide.

Please note: After each competition round competitors have the option to either submit their current presentation or re-record and submit a new presentation for entry into the next round.

Judging Criteria

At every level of the competition each competitor will be assessed on the judging criteria listed below. Each criterion is equally weighted and has an emphasis on audience

Comprehension and Content

- Did the presentation provide an understanding of the background and significance to the research question being addressed while explaining terminology and avoiding jargon?
- Did the presentation clearly describe the impact and/or results of the research, including conclusions and outcomes?
- Did the presentation follow a clear and logical sequence?
- Was the thesis topic, research significance, results/impact and outcomes communicated in language appropriate to a non-specialist audience?
- Did the presenter spend adequate time on each element of their presentation - or did they elaborate for too long on one aspect or was the presentation rushed?

Engagement and Communication

- Did the oration make the audience want to know more?
- Was the presenter careful not to trivialise or generalise their research?
- Did the presenter convey enthusiasm for their research?
- Did the presenter capture and maintain their audience's attention?
- Did the speaker have sufficient stage presence, eye contact and vocal range; maintain a steady pace, and have a confident stance?
- Did the PowerPoint slide enhance the presentation - was it clear, legible, and concise?

Judging Panel

To provide every entrant with a similar experience, it is recommended that the following be taken into consideration when composing the judging panel.

- Include three to five judges on your virtual panel;
- Balance your judging panel by age, gender, academic/professional positions, and discipline;
- Consider including a marketing/communications member; and
- While judges should declare any conflict of interest, they should still vote on each 3MT presenter's oration, even if the presenter is from their discipline.

Virtual Competition Guidelines

Virtual 3MT Preparation - Competitors

Even the world's best presenters prepare before important presentations. To assist your competitors with their preparations, please find below suggestions that will help them in writing their presentation, creating their slide, as well as practising, recording and submitting their presentation.

3MT Writing

Write for your audience

One of the judging criteria looks for evidence that you can explain your research to a non-specialist audience. To do this you may like to:

- Avoid jargon and academic language;
- Explain concepts and people important to your research (you may know all about Professor Smith's theories but your audience may not);
- Highlight the outcomes of your research, and the impact it will have;
- Imagine that you are explaining your research to a close friend or fellow student from another field; and
- Do not devalue your research, what you are doing is exciting and you should convey enthusiasm for your subject.

Tell a story

You may like to present your 3MT like a story, with a beginning, middle and an end. It's not easy to condense your research into three minutes, so you may find it easier to break your presentation down into smaller sections. Try writing an opener to catch their attention, then highlight your different points, and finally have a summary to restate the importance of your work.

Have a clear outcome in mind

Know what you want your audience to take away from your presentation. Ideally, you would like the audience to leave with an understanding of what you're doing, why it is important and what you hope to achieve.

What not to do

Do not write your presentation like an academic paper. Try to use shorter words, shorter sentences and shorter paragraphs. You can use humour, however be careful not to devalue your presentation.

Revise

Proof your 3MT presentation by reading it aloud, to yourself and to an audience of friends and family. This allows you to not only check your style, but it will allow you to receive critical feedback. Ask your audience if your presentation clearly highlights what your research is and why it is important.

3MT PowerPoint Slide

Before you start work on your slide, you should take the following rules into account:

- a single static PowerPoint slide is permitted;
- no slide transitions, animations or 'movement' of any description are permitted; and
- no additional electronic media (e.g. sound and video files) are permitted.

An engaging visual presentation can make or break any oration, so you want your slide to be legible, clear and concise. You may like to consider some of the following suggestions.

Less is more

Text and complicated graphics can distract your audience – you don't want them to read your slide rather than listen to your 3MT.

Suspects, Science and CSI
Slide: Matthew Thompson, 2011

Personal touches

Personal touches can allow your audience to understand the impact of your research.

Ocker or Oriental? Asian Australians and the Denial of National Identity
Slide: Michael Thai, 2013

Creativity drives interest

Do not rely on your slide to convey your message – it should simply complement your spoken oration.

The Fourth Man
Slide: Ryan Stafford, 2011

Work your message

Think about how your slide might be able to assist with the format and delivery of your presentation – is there a metaphor that helps explain your research?

Brain Waves that Predict the Future
Slide: Tim Paris, 2012

Virtual Competition Guidelines

3MT Presentation

Practice, practice, practice

Before you record your presentation is it important to practice so you can present with confidence and clarity.

Vocal range

- Speak clearly and use variety in your voice (fast/slow, loud/soft).
- Do not rush – find your rhythm.
- Remember to pause at key points as it gives the audience time to think about what you are saying.

Body language

- Stand straight and confidently.
- Hold your head up and make eye contact.
- Never turn your back to the audience.
- Practise how you will use your hands and ensure your presentation is recorded/delivered from a single position.
- Do not make the common mistakes of rolling back and forth on your heels, pacing for no reason or playing with your hair as these habits are distracting for the audience.

Dress

- While there is no dress code, if you are unsure of how to dress you may like to dress for a job interview or an important meeting.
- Do not wear a costume of any kind as this is against the rules (as are any props).

3MT Recording - Device Options

Recording your presentation can be done using a camera and or handheld video recorder however most phones allow you to record through the camera function and most computers have recording ability (via camera or webcam) using inbuilt programs such as:

Windows

- Camera App
- Windows Movie Maker

Macintosh

- QuickTime
- iMovie

Online programs which you might like to consider include:

- Zoom

3MT Recording - Filming at Home

There are three factors to consider when selecting your location to ensure you are producing the best video possible: light, sound and background.

Light

Dark environments impact the overall quality of your video because cameras do not perform well in dim lighting. Ensuring you are well lit guarantees the camera and therefore, your audience, can see you clearly. Look for a room in your home that has lots of natural light. If you are using light from a window, ensure you are facing towards the window so light falls on you directly.

Any additional lighting you can introduce will further improve the quality of your video. Look around your home for desk lamps, torches etc. Watch [this tutorial](#) for more information.

Facing away from window

Facing window

Sound

When filming video at home, ensure you choose a very quiet environment where you have as much control over the sound as possible. For example, choose a small room where you have the ability to close all doors and windows. Make sure any noisy electronics in the room such as fans, air conditioners, computers, phones and possibly even your fridge are temporarily turned off. These are much louder in video than you may think and are very distracting to your audience!

Be aware of any audible interruptions you don't have control over such as aeroplanes, lawns mowers and cars. Consider filming during a quiet time of day such as early in the morning when there are likely to be less interruptions. If there are audio interruptions during your recording, do not continue. Wait it out and try again at a later point!

Background

Aim for a clean, plain wall as your background, completely free of visual distractions from the waist up where you will be framing your shot.

Virtual Competition Guidelines

3MT Recording - Setup

Whether you're filming on a phone, tablet or web cam, there are further factors to consider when actually setting up to film your video:

Support

Ensure phones and tablets have enough storage available, are in aeroplane mode, fully charged and either connected to a tripod or, placed on a stable surface (think creatively - Blu Tack to wall). Your friend cannot offer to be a tripod by holding your phone or iPad for you: Your video needs to be completely stable as movement is very distracting.

Camera orientation

Ensure phones and tablets are turned onto their side so the video is filmed horizontally not vertically. This is to ensure the finished video is the correct shape and size when uploaded to Vimeo.

Eyeline

To ensure your eye line is correct, the tripod or surface where your recording device is placed, should be high enough so that the camera lens is in line with your eye level. Try to avoid the camera lens having to either point up or down towards you.

Framing - Two Options

1. Set up your shot so you are in the centre of the frame, not being cut off at the top and so you can be seen from the waist up. Ensure there is equal space and just the blank wall background on either side of you.

2. Set up your shot so you are to the left of the centre of the frame without being cut off at the top and so you can be seen from the waist up. The right side of the video frame should be just the blank wall background, as this is where your slide will be edited in.

Focus

Before you start recording, ensure your device is able to auto focus on you and isn't focusing on anything else around you instead. Be sure to watch your recording back and ensure you remain in the focus the entire duration.

Proximity

Ensure your recording device isn't too far away from you. The microphone on the device should be as close to you as possible to achieve both the desired framing and to ensure the audio is as clear as possible.

Test recording

Complete a short recording of a portion of your talk. Ensure you are speaking at the volume you intend to use for your presentation. Review the test recording to ensure all of the above elements are complete and working.

Presentation tip

Be aware of your eye movement. Maintain eye contact with the camera lens as though they were a person in the audience watching you present live.

Virtual Competition Guidelines

Video Editing

- Go to website - <https://www.kapwing.com> (or any video editing platform you are familiar with, Kapwing is a suggestion only)
- Create an account by signing in with Google or Facebook
- Go to My Workspace - click new project - click start with studio
- Click start with blank canvas
- Rename Studio Draft (top of page) - Name - 3MT Title
- Click add scene - left hand side to show 2 blank scenes
- Adjust output size (16:9 - widescreen) - right hand side

Scene 1

- Highlight scene - click upload - insert 3MT Identifying Details as a JPEG
- Fill in the PP with your details and save a copy as a JPEG for uploading - does not upload PP

Scene 2

- Highlight scene - click upload - insert 3MT Video file or URL link
- Highlight scene - click upload image - insert 3MT PP slide - highlight 3MT PP slide - click lock ratio - adjust size and place in top right hand corner / or on right hand side
- Save a copy of your 3MT PP slide as a JPEG for uploading - does not upload PP
- Save draft and review
- Publish
- Copy link and upload your final presentation to Vimeo - The Vimeo link to your video is the link you will submit to your 3MT Event Coordinator along with your 3MT PP slide so the judging panel can view and assess your presentation.

Uploading to Vimeo - Computer

- Ensure your completed video has been copied to your desktop or laptop device from your phone or tablet
- Create your own personal Vimeo account and log in at vimeo.com. Click 'log in' on the left of the top toolbar
- Hover over the blue 'New Video' button in the top right and select 'upload' from the drop down menu.
- Either drag and drop your file for upload or manually select your file by clicking 'or choose files'. The upload should begin automatically.
- Ensure the privacy setting is set to 'only people with the private link'.
- Give your video a title: Name_3MT Title here and double check the privacy settings.
- The Vimeo link to your video is the link you will submit to your 3MT Event Coordinator along with your 3MT PP slide so the judging panel can view and assess your presentation.

Uploading to Vimeo - Smart Phone

- Download and install the Vimeo app.
- Create your own personal Vimeo account and log in via the blue log in button. If you already have an account, click the blue log in button and enter your existing details.
- Click on the 'upload' button in the bottom right-hand corner and select your video from the camera roll.
- Trim the length of your video, or choose 'skip'.
- Ensure the privacy setting is set to 'only people with the private link'.
- Give your video a title: Name_3MT Title here and double check the privacy settings.
- The Vimeo link to your video is the link you will submit to your 3MT Event Coordinator along with your 3MT PP slide so the judging panel can view and assess your presentation.

Updating Video

Vimeo allows you to replace a video with an updated file so the original link remains the same.

If you need to update your submission, update your video at the existing Vimeo link. **Do not** upload a new video from scratch, as this will create a new link and will be difficult for organisers to track.

Please note: only done using a computer or tablet.

- Log in to your Vimeo account on an internet browser (do not use the app).
- Navigate to the video by selecting "videos" on the left hand side menu.
- Click on the video to open the video's settings.
- Scroll to the bottom of the settings options on the left-hand side of the screen.
- At the bottom of the scroll bar, click the blue button "replace video".
- Navigate to and select the new video file on your device.
- Watch the progress of the new upload at the bottom left-hand side corner of your screen. Do not close the browser window until this is complete.
- Watch the updated video through to ensure the new video has replaced the old version. This can sometimes take time to process.

Event Management

Resources

The Three Minute Thesis brand and logo is a registered trademark of The University of Queensland (UQ).

UQ has developed a number of resources (listed below) which will assist in developing a virtual 3MT competition.

All 3MT information, resources and marketing materials are free to use; however you must obtain the 3MT Materials Permission and ensure you adhere to the Brand Guidelines.

Event Management Resources

- Judging Sheets
- Award Certificates
- Order of Proceedings
- People's Choice Ballot (UQ uses Survey Monkey)
- PowerPoint Presentation
- Judging Panel Information
- Participant Contact Details Spreadsheet

Event Management Resources - Virtual Competition

- PowerPoint Title Slide

Promotional Resources

- 3MT Logos (Jpeg, EPS)
- 3MT Branding Guidelines
- Promotional PowerPoint Slide

Further Information

If you have any queries about 3MT please visit the 3MT Website or contact the Graduate School.
