

Everyday Accessibility

What is the Everyday Accessibility Framework?

The Everyday Accessibility Framework (EAF) advocates for best practice digital inclusivity techniques. The ethos underpinning this framework is to respectfully welcome people into the space of accessibility and provide an entry point to wherever they might be on their accessibility journey.

What are the Everyday Accessibility Basics?

Accessibility techniques that provide maximum impact with minimal effort.

How do you use the Everyday Accessibility Basics?

Find yourself within these Minimum, Meaningful and Consistency levels. If you are doing all of these things, congratulations you are on your way!

**ACCESSIBILITY
CHAMPIONS**

	MINIMUM	MEANINGFUL	CONSISTENT
 HEADINGS	Use ordered headings to add structure	Provide meaning and context to your headings	Apply headings consistently across resources
 LINKS	Avoid adding raw links	Give your links meaning and context	Apply links consistently across resources
 TABLES	Avoid tables for layout alone	Ensure your tables are structured and usable	Be mindful about when, where and how you use tables
 IMAGES	Flag images that are decorative	Add meaningful alternative text and context for images	Provide alternative information for complex images and diagrams
 VIDEO	Prepare and deliver resources for clear transcription	Review, reflect and respond to the quality of content	Connect to accurate and quality resources
 FILES	Make your files discoverable	Use and communicate a clear naming convention	Be consistent across all your resources
